## WOMENS SUFFRAGE IN IOWA by Verl Lekwa

The fire marshal of the State of Iowa in 1916 was Ole Roe, a Norwegian immigrant. He used his important position to issue a strong appeal that year for Iowa women to get the right to vote. He noted that in 1909 the women of Norway were given the vote, and now it was time for the U.S. to follow suit. Ideas often originate in the large and populous countries, Roe said, but “they blossom and bear their earliest fruit in the small countries” such as Norway.

“I believe the men of Iowa will be as generous and just to the splendid womanhood of the state as the men of Norway,” Roe wrote in a letter sent to newspapers around the state. “Thirty-six years ago a talented young woman, Miss Gina Krog, organized the successful women’s suffrage movement in Norway,” he wrote. He goes on to say it gives a family two votes instead of one, recognizes female talents and productivity, does not “interfere with her duties as wife and mother,” and it is a simple act of justice to give them this equality.

My grandfather was not swayed by fellow Norskie Ole Roe. He told everyone, including those of his nine sons who were old enough to vote, to vote No and keep women in the home.

The Iowa legislature in 1916 did agree with Herr Roe and approved women’s right to vote, but Iowa male voters such as my grandfather voted it down. A couple of years later the U.S. government approved women’s suffrage and when enough states approved of its constitutional change, women won the voting right in 1920.

## NEWS FROM NORWAY Treasurer Ding Sather take note!

Berkeley’s Gold Rush – from News of Norway magazine.

Generous donations from a Norwegian farmer’s son who immigrated to the United States helped make one of America’s finest universities. Karin Sveen’s book "The Immigrant and the University" tells the fascinating tale of a Norwegian farmer's son who traveled to America and became one of the most important financial figures in the U.S. in mid-nineteenth century America. The book was recently published in English by the University California Press, translated from the original Norwegian and is a historical biography about Peder Sather (1810—1886) who arrived in New York City 1832, where he started out as a servant. After 18 years there, he went to San Francisco during the gold rush as head of the banking house of Drexel, Sather & Church. Sather contributed to the founding of what is now widely considered one of the greatest public universities in the world, the University of California, Berkeley. Two of the best-known landmarks of the UC Berkeley Campus, the Sather Gate and the Sather Tower, are named after him.

“To accomplish such a feat as Peder Sather’s, you really need an astonishing talent, not only intellectually, but also in terms of social skills. Norwegian immigrants in the U.S. were known for their ability to adapt to American society, symbolized by their prompt willingness to anglicize their names. They wanted to live here, and they wanted to be a part of this world," Sveen says.

## EXERCISE NOTE

If you are doing anything to stay in condition, from walking in a mall, to biking, to swimming, to stretching, to lifting small weights, see Verl Lekwa and get started on the SON exercise medal ladder. It acts as an incentive to stay healthy.

## OLE and LENA

Ole and Sven decided to exchange Christmas presents this year and Sven happened to give Ole a new weed whip. Ole was so excited that he just couldn't wait until next summer to try it out, so he started it in his front room and just then Lena's cat ran through the room under the weed whip and off went its tail.

Sven excitedly said, "Oh, Ole, now what should we do. Dat was Lena's cat".

Ole said, "Quick Sven, grab da cat and I will get da tail and ve vill go to Walmart.  
And Sven said, "Vhy not da veterinarian Ole?"  
And Ole told Sven, "Vhy, haven't you heard Sven. On TV they say Walmart is da nation's largest retailer!"
